

KEEP SAVING WATER!

Thank you to all Capricorn Coast residents for your efforts in significantly reducing your water consumption since the Level 3 water restrictions were introduced on 6 October.

Further reductions are still needed and we urge you to continue to find ways of saving water and improving water efficiency in your homes.

For all residential premises Level 3 restrictions apply.

- ◆ Irrigation systems and sprinklers are banned.
- ◆ Watering of new turf permitted by limited exemption only.
- ◆ No watering (including hand held watering) of existing turf/lawn is permitted.
- ◆ Hand held watering of gardens and plants is permitted only during the hours of 6.00am – 9.00am and 5.00pm – 8.00pm.

By following these tips, your family can reduce water and it won't affect your lifestyle.

- ◆ Install water efficient washing machines.
- ◆ Install a water efficient shower head.
- ◆ Use the 1/2 flush on your dual flush toilet as first choice.
- ◆ Have a 4 minute shower.

For more ideas on how to save water in your home or for information about the water restrictions in place, visit the Fitzroy River Water website www.frw.com.au, Council's website www.rrc.qld.gov.au or call Council on 1300 22 55 77.
